

ETS Nigeria Activities Overview

November 2016 – April 2017*

EMERGENCY TELECOMMUNICATIONS
SECTOR

The Emergency Telecommunications Sector was activated on 23 November 2016 to address the **critical ICT needs** identified during an assessment in North-East Nigeria in September 2016. The fulfilment of these gaps enables **humanitarians on the ground to carry out their jobs efficiently and safely**, ultimately assisting more people and **saving more lives**.

21 Local and Global coordination meetings

37 Information Management products

263 handheld radios reprogrammed from **12** organisations

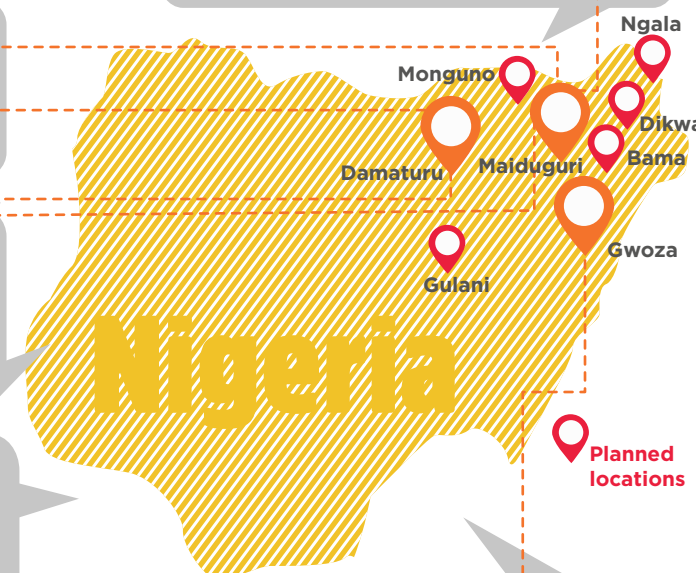

163 humanitarians from **11** organisations trained on radio standards procedures

60 registered devices from WFP, UNICEF and WHO on the satellite-based voice network provided by the ETS in North-East Nigeria

Provided Internet services to **155** humanitarians from **19** humanitarian organisations

Deployed Internet and security telecommunications services at the first humanitarian hub in **Gwoza**

Funding needs:

of the total ETS funding needs has been covered. The ETS is appealing

62.6%

for the remaining **US\$1.81 million** required to carry out its project until the end of **2017**.
