

SECTOR STRATEGY

- Provision of technical staff and Information and Communications Technology (ICT) equipment where feasible to ensure all operational areas in Cox Bazar are covered by security telecommunications services.
- Liaise with telecommunications operators, government and humanitarian responders to improve emergency preparedness in the operational areas through technical assistance and advice.
- Support CwC's humanitarian feedback and accountability initiatives by implementing the ETC Connect mobile app and provision of technical assistance and equipment to complement the setup of Information hubs being established in the crisis-affected areas.

KEY DATA

FUNDING STATUS

The ETS still needs **US\$ 411,600** for its activities until the end of 2018. The current funding rate is 69.7% funded out of US\$1.2 million requested.

NUMBER OF ORGANIZATIONS TARGETED

20 humanitarian organizations were targeted and 50% will be assisted through activities including the provision of mobile app, extension of the current security telecommunication radio coverage, etc.

NUMBER OF INFORMATION HUBS EQUIPPED

40 info hubs will be equipped with multi-media kits, internet access and dual-power solutions to support the information collating and sharing mechanism.

ACCESS TO RELEVANT INFORMATION & COMMUNITY FEEDBACK

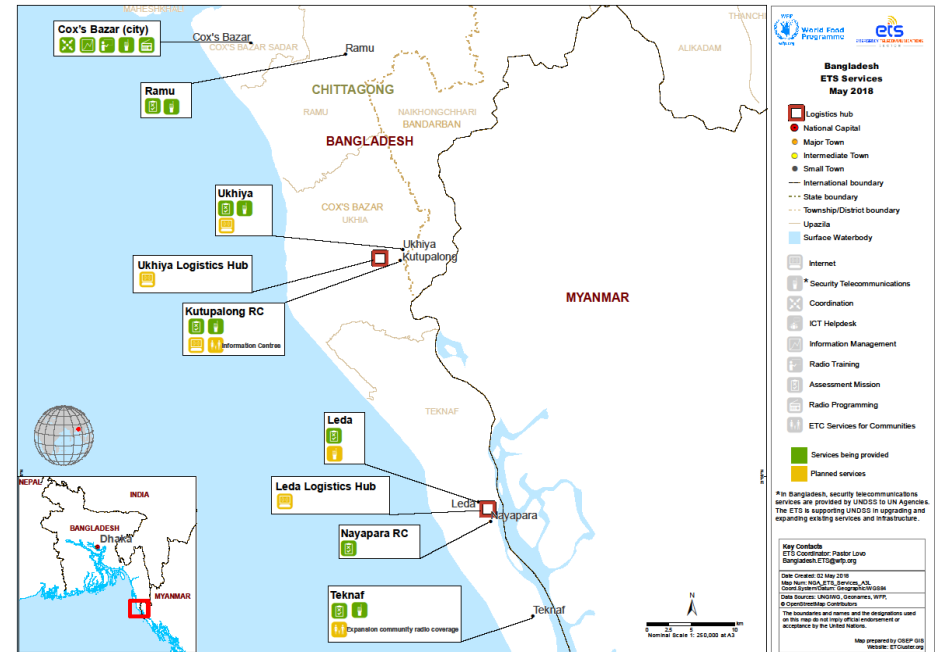

Upgrading the coverage of the community FM radio station to improve the broadcast of key messages to the affected communities.

EMERGENCY PREPAREDNESS

26 camp offices will be equipped with internet access and dual-power solutions while three district EOCs will receive radio network upgrades.

ETS SERVICES DELIVERED IN THE OPERATIONAL AREAS

CHALLENGES

Engage with both mobile and Internet Service Providers (ISPs) to gather their recovery plans and existing services and share them with the humanitarian community.
